Simply Powerful Woodworking Software

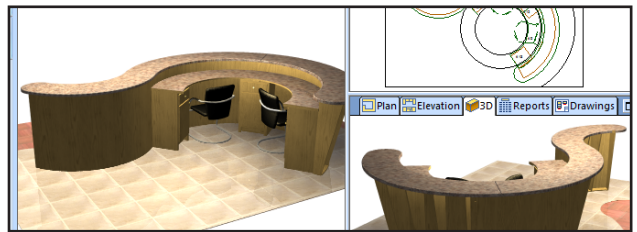

Cabinet Vision is essential for businesses wanting to automate their operations. It allows you to automatically generate your shop drawings, 3D customer renderings, cutting lists, material requirements, estimating, CNC machining, and so much more. It uses solid modeling technology to create true three-dimensional presentations of the final product on-screen, and simultaneously generates the necessary information for your shop floor.

Keep the simple tasks easy and make your complex jobs possible!

: overview

Solid Essential

Solid Essential was designed with the small startup cabinet shop in mind. It gives you the essential tools you need to get started in the automation of your engineering process. Solid Essential provides basic cut-list, estimating, and presentation capability.

- Face Frame Construction Definition
- Frameless Construction Definition
- Drawer Box and Roll Out Construction Definition
- Door/Drawer Front Style Definition
- Multiple Design Views Available (Plan, Elevation, 3D, Rendered, etc.)
- Scroll Wheel Zooming
- Straight, Angled, and Peninsula Walls
- User Defined Custom Assembly Catalogs
- Full Cabinet Sectioning Control
- Basic CAD Functionality
- Switch from Inches or Metric at Anytime During the Design Process

Solid Standard

Solid Standard was designed with the small cabinet or closet shop in mind. Solid Standard gives you the functionality required to take your business to the next step. Thinking about getting a low-end Nesting CNC Router? This is the product to get you started on your path to CNC Automation.

- All the features from Solid Essential plus...
- Ability to Add-On Screen to Machine™ Center
- 32mm And Frame Overlay Construction
- Create Custom Molding Profiles
- Create Materials
- Elevation Cross Sections
- Cathedral and Vaulted Walls
- Auto-Fill Walls and Rooms with Cabinets
- Curved Walls
- Section Drawer Boxes
- Beaded Face Frames
- Batch Jobs

Solid Advanced

Solid Advanced was designed with the mid-sized residential or commercial cabinet and closet shop in mind. Building upon the functionality available in Solid Essential and Solid Standard to grow with your business.

- All the features from Solid Standard plus...
- Ability to Add-On Screen to Machine™ Center
- Advanced CAD Functionality
- Custom Scripting Language (User Created Standards)
- Plan Cross Sections
- Split Screens
- Ability to Layout T-Walls (Stub Walls)
- Place Objects on the Backs of Walls
- Define Your Own Custom Object Intelligence
- Import Google™ Sketchup™ Models
- Create Part Libraries
- Price By Part
- Complete control of all details of the cabinet hardware, materials, changing construction settings, door styles and more
- Automatically generate the reports needed to build your project such as cut lists, bill of materials and assembly sheets

Solid Ultimate

The ultimate solution for any sized commercial or residential cabinet or closet shop, from the smallest to the largest. Solid Ultimate gives you a complete set of tools to engineer “your” product exactly as you need it.

- All the features from Solid Advanced plus...
- Ability to Add-On Screen to Machine™ Center
- User Defined Intelli-Joints™
- Full Part Control
- Exploded Assembly Views
- Ability to Use Custom Reports (Crystal Reports Required to Create them)
- Define Part and Assembly Labor
- Counter Top Construction Definition
- Counter Top Machining (with S2M Center Ultimate)
- Grain Matching (with S2M Center Ultimate)
- Dovetail Drawers (with S2M Center Ultimate)
- MDF DoorMaker™ (with S2M Center Ultimate)
